

S500

Mechanical Keyboard

- Stylish appearance with a one-piece molded metal panel that is rust-resistant and scratch-resistant.
- Keycaps are made using dual-color injection molding, making them highly durable, wear-resistant, and fade-resistant, available in multiple colors.
- The keyboard features an ultra-thin profile with highly responsive keys and a 2.0mm actuation travel.
- Equipped with mechanical switches rated for 50 million keystrokes, offering exceptional durability and excellent tactile feel.
- Keycap and gap backlighting provide even illumination, with optional single-color or mixed lighting effects.

The keyboard includes a user-friendly layout with a series of practical shortcut keys enabled via the Fn key combination.
